

VETERINARIAN NOW LOCATED IN ELBA

I wish to announce to the people of the Elba area that I have moved to Elba and am now practicing Veterinary Medicine. Headquarters for the present at home, Phone 72 or 59.

J. BRYAN TAYLOR, D.V.S., Elba, Alabama.

CARD OF THANKS

We take this opportunity of extending our very deep appreciation to our friends everywhere who were so attentive and helpful during the illness and at the passing of our loved one, C. E. Dorsey, Sr. Your many expressions of esteem, sympathy and love have made it easier for us to hear our great sorrow. We shall ever be grateful for your kindness.

The Dorseys.

Mrs. J. M. Bonneau and little Miss Margaret English visited Captain Lander Curton at Finney hospital at Thomasville, Ga., last Sunday. Capt. Curton's friends here will be glad to know that he is gradually improving.

Mrs. Mary Lewis and little son, Marvin III, of Dothan, spent several days in Elba last week with her mother, Mrs. S. H. Brock.

Friends of Mr. J. L. Jones will regret to learn that he is confined to his bed at his home on Smith avenue. They hope he will soon recover.

Will Your Brakes Pass A Rigid Test For Safety??

A nation-wide "Brake Testing Campaign" will be held from April 15 to June 1. This campaign is being instituted by the National Association of Police Chiefs and police officers in every city and town in the country will take part in this safety campaign.

HOW ARE YOUR BRAKES?

If an officer should stop you on the road today to test your brakes, would you be embarrassed because they are not properly adjusted or need repair? It may happen to you.

SPECIAL BRAKE SERVICE

We have a complete stock of brake repairs for Chevrolet and Ford cars, and beginning now and continuing through the campaign we are giving special attention to the adjustment of your brakes. If you need repair or adjustment, remember we will give "PRIORITY" to brake jobs.

JAMES FARRIS ON USS BRIMINGHAM SAW PRINCETON SINK

James I. Farris, C. M. I., member of the crew of the Cruiser Birmingham, some time ago sent a picture and a newspaper clipping telling of the efforts of his ship to help save the USS Princeton when she was hit by a Japanese bomber last fall east of Luzon in the Philippines. Fighters from the Princeton and other carriers had beaten off attacks by two large groups of Japanese bombers, shooting down 150 planes. As she had before been in the Palau, off Truk, off Formosa and in the Marianas, the Princeton escaped in strong enemy air attacks. Then a lone Jap plane glided down out of the clouds and dropped a bomb through the flight deck near elevators loaded with Avengers, gassed and armed with torpedoes. These exploding torpedoes started fires which could not be subdued. The cruiser Birmingham and destroyer Morrison came alongside with their hose lines in an effort to save the Princeton, but the flames could not be controlled and finally the ship was sunk by torpedoes from the ships that had been trying to save her.

Cpl. J. P. Jackson, who has been spending a 15-day furlough with his wife and mother, left last Sunday for his assignment at Camp George Jordan, Seattle, Washington.

Friends of Mr. J. L. Jones will regret to learn that he is confined to his bed at his home on Smith avenue. They hope he will soon recover.

METHODIST NOTES

Elba Methodist Church will begin to carry out other part of the "Crusade for Christ," beginning April 15 and continuing through April 22. The Pastor has secured the services of Rev. M. T. S. Mathison, popular minister of Nottulsa, Ala., and Rev. A. B. Clausen, of Opp, Ala.

Rev. Mathison, better known as "Si", is well known in the Alabama Conference, having led singing in the largest churches in the conference. He is especially good with young people, and that is the method of presenting the Gospel of Christ on a flame-bored; you not only hear the Gospel, but you see it.

The Methodist Church has secured this fine team of evangelistic workers to inspire the people of Elba to a fuller and deeper life with Christ. Please keep these dates in mind. Come to the services every night at 8:00 o'clock and bring someone with you.

There will be preaching at Ham's Schoolhouse Saturday night at 8 o'clock.

Sunday is Liberty's regular preaching and worship service.

W. M. Spores, Pastor.

FAREWELL DINNER

A farewell dinner in honor of Mrs. T. M. Stroud who is moving to Sou. Florida to make her home, was given by her sister, Mrs. Sam Boswell, at her home on March 25. Those attending were: Rev. B. F. Pierce, Mrs. T. M. Stroud and children, Grace and Howard; Mr. and Mrs. Robert Hussey and children; Mrs. C. E. Wambles and children; Betty Jean and Patsy; Mrs. Ross Ammons.

Mr. and Mrs. Harold Collins, of Troy, were visitors to Elba Sunday evening.

GARDEN SUGGESTIONS FOR APRIL

By Hugh D. Sexton, County Agent

1. Years of observation show that most gardens are not properly fertilized. Use plenty of compost and plenty of commercial fertilizer. Best quality vegetables are produced where plenty of these materials are used.

2. Proper cultivation is important. If the soil was well prepared before planting, very shallow cultivation is often enough to keep down weeds and is all that is needed while the vegetables are growing. Digging and deep plowing may do more harm than good to growing vegetables.

3. Insect control is always one of the biggest jobs in the garden. Hand-picking and destroying the insect bugs that show up in the spring will save a lot of work and poison later in the season.

4. Collard and cabbage are found on winter turnips and related crops now. Destroy these insects or they will cause trouble all the year. A good way to get rid of them is to spray with kerosene. This, of course, will kill the plants, but in most cases these old plants will not be used any more. The main thing is to get rid of the bugs.

5. Squash, cucumbers, cantaloupes and watermelons are attacked by the 12-spotted cucumber beetle. Destroy these insects as they appear. The plants can be protected by dusting with a mixture of rotenone and talc once a week. Do not use sulphur dust on these plants. The worm that bores into the fruit of these crops can be controlled also with rotenone-talc dust.

6. Cystitis should be used to control potato bugs, cabbage worms, bean beetles and many other chewing insects.

7. Cutworms are very numerous in most gardens this spring. The best way to protect early tomato plants from these pests is to wrap the stems with paper. Cut the paper into strips about three inches wide and wrap it loosely around the stem of the plant. The paper should extend one inch under the ground and two inches above the ground.

8. Don't put soybeans just because you did not like them the first time. They are easy to grow; they are good to eat, and they are good for you. Plant some seed of the Banel, Rokusan, and Semole varieties now. These varieties will furnish green beans from about the first of July until frost.

Mr. and Mrs. E. L. Spurlin returned Tuesday from Gainesville, Texas, where they visited Pvt. Foy Spurlin, who is undergoing treatment at the hospital at Camp Howze. Friends will be glad to learn that he is improving.

Mrs. Foy Spurlin accompanied them. They will stay with her husband during his assignment at Camp Howze.

Miss Nellie Faye Smith, of Washington, D. C., arrived last week for a visit to her parents, Mr. and Mrs. O. C. Smith, and other relatives.

Mr. and Mrs. Junior Griggs were visitors to Enterprise and Chancellor during the week end.

John Revel Crook, student in the V-12 Class at Howard College, Birmingham, was the guest of his parents, Dr. and Mrs. W. R. Crook, during the week end.

Mr. and Mrs. Bill Maddox, of Panama City, Fla., visited Elba relatives during the week end.

Mr. and Mrs. Jack Veal and children visited Mrs. E. E. Pierce, Mrs. T. M. Stroud and children, Grace and Howard; Mr. and Mrs. Robert Hussey and children; Mrs. C. E. Wambles and children; Betty Jean and Patsy; Mrs. Ross Ammons.

Mr. and Mrs. Harold Collins, of Troy, were visitors to Elba Sunday evening.

faith called and used of God to car-
ry out His purpose in the world.
These men of faith, brick and
white lives are to be our special
concern during the three months we
study the history of Israel and of
the Church.I. A Call and a Covenant (Gen.
12:1, 2).God was now ready to make
known His choice of a man to be
the father of the Jewish people. He
went down into Ur of the Chaldees
in the midst of a man who had faith in
the true God.Abram, "when he was called to go
out into the world with his wife, he
after receiving for an inheritance,
obeyed; and he went out, not know-
ing whither he went." (Gen. 12:1, 2).The Lord called him out from his
own land and kindred, to get him
away from his heathen and idolatry.
God wanted separated believers in our day, too
(read and ponder II. 1-19).
That call comes to every believer.
To those who are to serve Him,
there is a definite call to go out into
the world. (See Matt. 10:37-39).With the call came a great cov-
enant, an agreement between God and
His chosen people. This covenant God
repeatedly renewed with Abraham
and his descendants. It has been
faithfully fulfilled, and God has put
Himself on record that every bit of
it shall be completed. He keeps His
promises.Why did God choose Israel? It
was an election, a choice given in
not based on their merit or good-
ness. He had a threefold purpose:
to do His will, to glorify His name,
and to bring forth the Messiah.We appeal especially to
4-11 boys and girls, and to
other boys and girls as well
as to adults to help in this
important work. When your
first lot is consumed or sold,
restock with more chicks and
keep producing until this
meat shortage is over-

"Alabamians have done a
wonderful job in serving our
armed forces by expanding
their farming operations un-
der many handicaps, to meet
war needs, by providing
funds for the prosecution of
the war by producing goods,
and by many other ways.
We hope the war and is
now in sight. So let's step
up our meat production, as
outlined above."

"As an added incentive to
growers and all who handle
poultry, the price of broil-
ers, fryers and roasters
will be raised by a national
average of about 14 cents
per pound on July 1," says
War Food Administrator
Marvin Jones, in a letter to
Director Davis.

Allies in "Big Heave" Seal Off
Ruhr Valley Production Center;
Clay to Rule Occupied Reich

Released by Western Newspaper Union

EDITOR'S NOTE: While only one newspaper in the world, this is the only one that has been able to get this news.

Already warned of a 12 per cent
reduction in meat for the next three
months, civilians took the first big
hitch in their belts for the current
quarter with the announcement of an
increase in the point values of pork,
sausage and canned meat products.
While news of the tightening of
these and other controls over fats
and oils occupied the home front, it
was announced that all babies'
leather shoes would be rationed
after April.

In raising the point values on
pork, sausage and canned meat
products, OPA said that there would
be a 5 per cent less meat available
during April, but the decrease in
supplies would hit civilians harder
in May and June. Coinciding with
the new controls over the aforemen-
tioned meats, it was announced that
point values also would be brought
up, along with shortening, marger-
ine, and salad and cooking oils.

Hit Shortage

Discussing the meat shortage,
the national livestock committee
of the American Farm Bureau
charged that low price ceilings re-
sulted in a shortage of meat and
said assurances of minimum re-
turns would lead to greater pork out-
puts.

The committee's report came even
as congress conducted hearings on
the meat situation. The committee
representatives of all branches of the
industry calling for an upward re-
vision of the price ceiling.

In establishing ceilings on grade
AA and A beef, the committee said,
OPA assumed that the last 300 or 400
pounds a steer gained in the feed-
lot was mostly fat later wasted in
the kitchen. On the other hand, the
committee declared, fat of a steer
is distributed through its meat.

Steering of pork, the committee
stated that farmers cut hog produc-
tion at the government's request, and
would raise it again if prices were
forwarded against market
breaks.

Once unconditional surrender was
achieved, all direct forces in Germany
would be under direct command of
Gen. Lucius D. Clay, who had had
charge of military procurement for
the army service forces since 1939.

The appointment, the White House
said, was made by Gen. George
Marshall, army chief of staff. Clay
was appointed deputy to General
Eisenhower.

Worst to Come
Already feeling the sting of heavy
U. S. aerial bombardment, Japanese
found no comfort in Gen. H. H.
("Happy") Arnold's announcement
that America would bring the full
weight of its tremendous air power
to bear upon the Japanese once the
war in Europe ended.

As Arnold spoke, the strategic
Ryukyu islands stretching between
the Japanese mainland and Formosa
became the latest target for American
assaults, with carrier planes team-
ing with warships in blasting the 500-
mile-long chain preparatory to
ground attack.

In declaring that the U. S. planned
to use every plane against the Jap-
anese after Germany's fall to han-
dle their defeat, General Arnold
said that not only would American
air power smash the enemy's
industry, but it would also shut-
ter his communication lines to bring
about his collapse.

Italian Prisoners Save U. S. Manpower

"Million Man-Days"
Italian service units in the U. S.,
helping to relieve the manpower
shortage by contributing one million
man-days per month of essential
skilled and unskilled labor at mili-
tary installations, total approximately
55,000 men, the war department
reported.

The members of the Italian Ser-
vice Units wear Class B Army cloth-
ing from which all army buttons
and insignia have been removed and
on which have been seven distinctive
sleeve and hat patches bearing the
word "Italian". They are paid \$24
monthly, which approximates the 40
cents per work day paid ordinary
prisoners of war engaged in labor.
The government receives the regu-
lar wage scale for their work.

Significant changes are taking
place in land tenure of eastern Eu-
rope, according to the Alexander
Hamilton Institute. In Poland, Ro-
mania and Hungary, the land is
being broken up and the land
divided among the peasantry. This
development might lead into a violent
left-wing movement after the war,
and labor's apprehension that com-
pensation might deliberately lure
plus help to break unions.

Reduction in outputs is partly due
to the fact that cultivation on small
plots is not as economical as on
large estates.

SOIL CONSERVATION
NEWS

By J. T. Albritton
Technician

From a handful of seed in
1935 to 8 1/2 million pounds of
seed in 1944, that is the fast-
growing record made in the
peanut section of Alabama,
Georgia and Florida by blue
lupine—winter soil improv-
ing crop and cash crops.

A joy to peanut growers,
hard-pressed to meet war-
needed production quotas,
blue lupine protects the soil
from the winter and spring
rains, puts new life and pro-
ductivity into the land.

If purple flowers on blue
lupine seem absurd, it
might well be explained that
this luxuriant-growing
legume produces a bluish-
green color of its foliage
—and not from the color
of its flowers.

It is a shame to
plow under a field of lupine
in full bloom, let's talk to
J. P. Wilson, Superintendent
of the Wiregrass Sub-Experi-
ment Station, "Cotton plant-
ed after lupine in 1943 and
1944 made an average of
1,726 pounds of seed cotton
per acre," says Mr. Wilson. "This
year was made on plots
planted continuously in cot-
ton year after year to com-
pare commercial sources of
nitrogen with lupine nitro-
gen. The cotton yield was
1,014 pounds average in
1941-42, 1,014 pounds in
1942-43, and 1,014 pounds
in 1943-44. In other
words, the lupine gave ap-
proximately 700 pounds of
seed cotton, more per acre
than the vetch and Austrian
peas, and approximately
1,000 pounds more than com-
mercial nitrogen."

J. F. Helms, Newton, who
is cooperating with the Wire-
grass Soil Conservation Dis-
trict, says that blue lupine
has jumped from 1,200 to 1,600 pounds per
acre following lupine turn-
ing, and corn made 40 bush-
els where it used to make
only 20." Mr. Helms is plow-
ing under blue lupine on 59
acres this spring and saving
6 acres to produce seed for
planting this fall.

This handful of seed that
started this new crop was
sent ten years ago by Roland
McKee of the Bureau of
Plant Industry, Soils and Ag-
ricultural Engineering, U. S.
Department of Agricul-
ture, to J. D. Warner,
Agronomist at the North
Florida Experiment Station,
Quincy, Fla. The next year he
obtained several hundred
pounds of seed from War-
ner. Most of this seed was
planted in South Alabama,
Georgia and Mississippi. In
the meantime, Warner was
also releasing seed to indi-
vidual farmers, county agri-
cultural workers.

Farmers in the Wiregrass
Soil Conservation District of
South Alabama started with
500 pounds of lupine seed in
1939 and harvested 1,750,
000 pounds in 1944. Ac-
cording to D. H. James, En-
terprise, Ala. Chairman of
the Board of Supervisors of
the Wiregrass Soil Conserva-
tion District, peanut grow-
ers had to "import" more
seed in 1944 than ever be-
fore. They bought a quarter
million pounds grown in
nearby soil conservation dis-
tricts, and this plant 200
million pounds last fall. The
five farmers who planted
lupine

A control program, according to the Wildlife Specialist who attended the meeting, should involve a rigid dog vaccination program and a fox trapping program. Those who attended this meeting endorsed this program.

The two veterinarians in the county are busy with dog vaccinating clinics. Citizens of Coffee County are urged to cooperate in this program which is necessary for public safety.

The County Commissioners and Probate Judge purchased 144 fox traps. These traps were distributed to interested farmers in Camp Ground, New Hope and Victoria communities last Saturday.

The trapping program is under the direction of the writer and Mr. Andy Ray, Federal Wildlife Specialist and professional trapper. As the program progresses the supply of traps will be moved to other communities.

Mr. and Mrs. G. E. Lindsey were visitors to Montgomery Monday.

Stephen E. Ham came up from Pensacola Naval Station to spend the week end with relatives.
